

Convention In Full Swing at Muskogee

MUSKOGEE, Feb. 5.—Nearly a thousand delegates and visitors had arrived yesterday afternoon for the State Democratic Convention which met here this morning.

Hotel accommodations were swamped, and there were prospects early in the afternoon of a heavy demand for rooms in the residence district by night.

Preliminary caucuses, which occupied the day, apparently have arranged things so there will be no fight of great consequence on the floor of the convention. Leaders of the party were agreed that the outlook is for a perfectly harmonious session, indicative of an undivided front in the coming campaign.

Owen and Friends Confer.

The Severs hotel, unofficial headquarters for the powers that be, swarmed with delegates and visitors throughout the day. Senator Owen had a conference with his friends in a private dining room on the second floor during most of the morning, but aside from this, caucuses were held in a corner of the lobby, or wherever two or three were gathered together.

The slate apparently is for Carl Monk of McAlester to be temporary chairman. The name of Judge C. B. Stuart of Oklahoma City had been mentioned, but it was stated an agreement was practically reached that Monk should be the choice for that honor. Whether the temporary organization will be made permanent was not certain Wednesday afternoon, but there were indications that it will not.

Hastings May be Chairman. Congressman W. W. Hastings of Tahlequah is being mentioned as the probable choice for permanent chairman. Congressman Hastings is especially friendly to Senator Owen and does not wish to go to the national convention. Since this is an Owen-for-president convention with out a doubt, and it is being held in Congressman Hastings' district his chances for the honor seem bright. Reports that a resolution will be offered on the floor endorsing Scott Ferris for senator were denied in all quarters.

Most of Ferris' friends, while believing they will be in the majority in the convention, feel it would be a political blunder to inject such a resolution into the convention. It is far more likely that a resolution will be offered endorsing the national administration, and condemning any and everyone who has attempted to obstruct the administration in its conduct of the war and its handling of reconstruction problems. This kind of resolution will not be so personal, but will satisfy the pro-Ferris contingent, as well as the pro-Freeling delegates, and the anti-Gore men can't figure how the Gore advocates can well oppose it.

Russell's Foes on Job. A similar situation is likely to develop in regard to state politics. A resolution endorsing the state administration is of course in order, as they always are. There are those who would like to see the convention sit down hard on Campbell Russell for his criticism of the governor and other departments of state. Without mentioning names, a resolution may be offered endorsing the state administration and at the same time condemning any man or set of men, and particularly condemning any state official, who attacks any other department of the administration. This, too would be construed by Russell's enemies as a direct slap at him. There are indications, however, that such a resolution would not have absolutely clear sailing, for it is generally understood the Robertson following does not have absolute control of the convention.

Lafayette No Candidate. Reports that Ben Lafayette, chairman of the state committee, would be a candidate against George Bowman for state national committee were flatly denied by Mr. Lafayette himself Wednesday.

"I am not a candidate, and I'm not mixing in it," said Mr. Lafayette. "As chairman of the state board, I must help elect the man who is chosen, and I am not a candidate myself."

Mr. Lafayette will be a candidate however, for delegate to the national convention from this district, and in this aspiration he is opposed by H. R. Christopher, secretary to Governor Robertson.

There is no doubt the convention will endorse Senator Robert L. Owen for president, and instruct the delegation to vote for him so long as there is a chance to win. The only contest over the delegation will come over the question of how much further the delegation will follow the senator.

Women Here in Force. The number of women here in attendance at the convention is surprisingly large. Half of the delegations from most of the adjoining counties are women, and large numbers have come and are coming from other counties of the state. An effort will probably be made by the women to get a resolution calling for a special session of the legislature to ratify the suffrage amendment, but this resolution will meet with opposition on

BULLETIN.

By the Associated Press: MUSKOGEE, Okla., Feb. 5.—Two thousand delegates and visitors were in attendance when the State Democratic convention went into formal session at 11 o'clock this morning.

Before going to the more serious business of electing delegates to the National Democratic Convention, the temporary organization was agreed upon at a meeting of the State Central Committee as follows:

Carl Monk, McAlester, chairman; Mrs. D. A. McDougal of Sapulpa; Mrs. Arthur Walcott of Ardmore; and W. S. Hearn of Greer county, vice chairmen; Mrs. Burke of Noble county; Mrs. R. L. Fite of Muskogee; and Mrs. W. B. Hawkes of Oklahoma City, assistant secretaries; M. B. Lowden of Grady county, sergeant at arms; John Fulsom of

Heavener, assistant sergeant at arms. A resolution condemning Campbell Russell, corporation commissioner, for his attacks upon Governor Robertson's pardon and parole record was introduced in the Central Committee meeting by C. C. Childers of Enid. After vigorous discussion, the resolution was amended so that the name of Russell was not mentioned and the resolution commended the administration of Governor Robertson and denounced any attempt to thwart it in its handling of the affairs of state.

the ground that Oklahoma's ratification would not put the amendment into effect, and is not necessary to give Oklahoma's women the vote in the coming election.

The state committee will meet at 9 o'clock Thursday morning in Convention hall to pass on credentials of delegates. The convention proper will be called to order at 10 o'clock and the prospects are it will be over by mid afternoon.

All "The Powers" Here. Practically every prominent figure in state politics is on hand for the convention, or will be by Thursday morning. A number of the leaders of the state arrived Tuesday night, and every room in the big hotels was reserved by Wednesday morning.

About a hundred rooms had been listed with the Chamber of Commerce up to noon, and only a small part of them had been taken, but it is certain every room that can possibly be spared for the visitors will be needed. There will be several hundred to accommodate both Wednesday and Thursday night, and it is important that these rooms be listed with the Chamber of Commerce, which is headquarters for this information.

MUCH FEDERAL ROAD MONEY STILL UNUSED

OKLAHOMA CITY, Feb. 4.—Unclaimed federal aid money for road construction in counties of Oklahoma in 1920 amounts to \$3,115,000, Robert C. Terrell, state highway engineer, announced today. Of that sum, \$2,200,000 will not be available until July 1.

In order to get the money, counties must appropriate funds for roads equal to the amount they wish to get from the federal funds. If the entire fund is used this year, it will mean the starting of \$6,230,000 worth of roads, Terrell said.

NAT'L ASSEMBLY FAVORS MONARCHY

MEETING MARCH 1 IS SAID TO BE STRONGLY IN FAVOR OF HUNGARY.

VIENNA, Feb. 4.—There is no doubt, according to newspapers here, that the national assembly at its next meeting to be held March 1 will declare itself in favor of a monarchy in Hungary. There are five pretenders to the throne. They are Prince Louis, who is supported by Premier Huszar, former emperor Charles, who never abdicated as king of Hungary, and who is represented by a party which calls itself the "legitimate," Count Andrássy, head of the new Hungarian army, Archduke Joseph, the clerical candidate, and Prince Cyril of Bulgaria.

ANY NIBBLES YET, NIC?

THREE NATIONS WILL NOT TRADE WITH RUSS

By the Associated Press: COPENHAGEN, Feb. 4.—Denmark, Norway, Sweden, Finland and Holland have agreed that they will not resume trade with Soviet Russia before Russia's debt to those countries has been paid or guaranteed, it is learned here. An invitation to a conference to be held soon at Geneva will be issued to the government of all European countries and the United States and it is proposed to reach an agreement concerning action on this question.

Recent Figures Show a Cattle Shortage Here

Number of horses on farms in Oklahoma on January 1, as reported by the U. S. bureau of crop estimates in co-operation with the Oklahoma department of agriculture, was 729,000 compared with 744,000 the preceding year. Number of mules remained the same, 238,000; milch cows 550,000 compared with 561,000 on January 1, 1919; other cattle, 300,000 compared with 1,440,000; sheep 131,000 compared with 125,000; and swine 943,000 compared with 1,036,000. Almost six per cent of all the mules in the United States are in Oklahoma.

Three Milch Cows Per Farm. Oklahoma has, in round numbers, three milch cows per farm. Compared with dairy states, such as Wisconsin, with ten head per farm, and New York with seven, the extent of expansion possible in this industry is seen.

The average production of milk has been increasing at the rate of one-half per year.

Shortage of fall pasture accounts for some of the decrease in the number of cattle, as few were shipped into the state while many were loaded for pasture in other states. Higher value of land, labor and feed, even freight rates, have all had an influence on the popularity of cattle raising.

There is a growing interest shown in sheep raising in the state and many farmers and ranchers are adding to their flocks. There are now about three times as many sheep in Oklahoma as in 1910.

There has been a decrease from 1,835,000 head of swine on farms in 1910 to 943,000.

Born, to Mr. and Mrs. C. T. Henderson, 219 East 10th St., an 8-pound baby boy. Mother and son are doing nicely.

LAST MINUTE NEWS

Fin Close Pt. Smith Schools. By the Associated Press: FORT SMITH, Ark., Feb. 5.—Fort Smith schools were dismissed this morning for an indefinite period because of the influenza epidemic.

Germans to Send New Note

By the Associated Press: LONDON, Feb. 5.—The German cabinet has decided to send another note to the Allies calling attention to the fatal consequences which would ensue upon extradition of the Germans demanded for trial by the Allies according to a Berlin dispatch to the Exchange Telegraph Company.

Gronna Bill Recommended

By the Associated Press: WASHINGTON, Feb. 5.—A favorable report today on Senator Gronna's bill repealing the war time measure under which the government controls wheat prices was ordered today by the senate agriculture committee.

San Antonio Editor Dead

By the Associated Press: San Antonio, Feb. 5.—Chandler Diehl, only son of Charles S. Diehl, now publisher of the San Antonio Light and for many years assistant general manager of the Associated Press, died today of pneumonia after an illness of eight days. The interment will be in San Antonio.

Ministers After German Heads

By the Associated Press: BERLIN, Feb. 4.—At the conclusion of tonight's cabinet session a member of the government informed the correspondent of the Associated Press that the ministers were unanimous in declaring that surrender of the men demanded by the Allies on an unofficial or any other extradition list was an utter physical impossibility.

Former King of Greece Breaks Relations With His Mother, the Queen

By the Associated Press: GENEVA, Feb. 5.—Former King Constantine of Greece has broken off relations with his mother, Queen Mother Olga, and his brother, Prince Christopher, owing to the marriage of the latter to Mrs. W. B. Leeds last Sunday. It is reported here King Constantine is said to have declared that he would have refused to have attended the wedding even had he been invited, and asserted he still refused to acknowledge his brother.

Unsettled tonight and Friday is all that the weather man could hand us today.

RAILROAD CONFERENCE MAKES LITTLE PROGRESS

By the Associated Press: WASHINGTON, Feb. 5.—There were no indications today that progress had been made in the conference by Director General Hines and railroad officials concerning wage demands by the employees. Both sides continued to maintain silence as to the status of the negotiations. Following group discussions among themselves, the labor leaders expect again to meet Mr. Hines, but it was believed nothing would be definitely accomplished for several days.

Pontotoc County Boy Wins First In Wheat Contest

County Agent J. B. Hill informs the News that Noland Young, seventeen year old son of Henry Young, living east of Ada, has won the Bankers Scholarship at the A. & M. College at Stillwater for the best wheat entered in the contest of the wheat clubs of the state.

In judging the wheat all points were taken into consideration, and when it is considered that contestants were entered from counties in the state that are known far and wide as wheat localities, it is quite a compliment to Mr. Young and to this county that he should take the first prize.

Every county agent in the state organizes these clubs among the boys of their respective counties and at the end of the crop season they compete for the prizes. In this case Mr. Young gets a free scholarship in the A. & M. College.

GAS SHORTAGE FOUND TO BE NATION-WIDE

OKLAHOMA CITY, Feb. 4.—A report by Andrew Kingcade, representative of the state gas inquiry board, who attended the special conservation meeting called by Secretary Lane in Washington, January 15-20, was received and approved here today by the gas committee appointed by Oklahoma City by the mayor. His report includes the following facts:

That the shortage of gas is general over the country; that conservation is absolutely necessary unless the country goes on an artificial gas basis; that the extraction of gasoline from gas does not materially affect the heat value; that the public must be educated to use gas conservatively, and that a two-ounce pressure is sufficient where proper appliances are effective.

Denver Mint Worker Caught Stealing Big Bars of Gold Today

By the Associated Press: DENVER, Colo., Feb. 5.—Orville H. Harrington, 41, skilled workman in the Denver mint, was arrested early today by secret service operators on a charge of having stolen gold bars to the value of \$35,000. He was trapped as he was carrying away a large piece of metal. He confessed and led the officers to his home where the bars were found buried about the yard and hidden in various places. All the stolen gold was recovered.

NORMAL LOSES THREE MEMBERS

MISS HELEN A. TURNER, PROF. M. L. PERKINS, AND PROF. R. G. SEARS RESIGNED, LATER TWO LEAVE SEPT. 1

The East Central State Normal has lost three members of the faculty, according to an announcement in chapel this morning by President J. M. Gordon. Miss Helen A. Turner, head of the department of art since the summer of 1910, has offered her resignation and has accepted a position in a New Jersey institution. She has been doing special work in Columbia University New York City, this fall and winter, and will not be back here again.

Prof. M. L. Perkins, who has been head of the department of psychology and supervisor of the training school since the establishment of the Normal in 1909, has offered his resignation, effective September 1, and at that time will take up his duties as dean of the department of education, Phillips University, Enid.

There are few school men in Oklahoma better known than Mr. Perkins. He was superintendent of the city schools of Ada from 1906 to 1909 giving up that work to take the place as vice president of the newly formed Normal school. Since that time he has come into contact with practically every teacher in this normal school district, and has left a lasting impression upon the minds of the youth of eastern Oklahoma. He leaves here to take up the work that is near his heart. In chapel this morning he said that he did not know of a position in the United States that he had rather fill than the one he will fill at Phillips.

During his stay in Ada, Mr. Perkins has made friends with every one he came into contact with. He has become a vital force in the church as well as the school life of the community. He will be sorely missed but will be an acquisition to Enid.

Prof. Rollo G. Sears, who has headed the History department since 1909, has also resigned and will take up his duties as the professor of Hebrew and Old Testament History in Phillips University on September 1. In a talk in chapel this morning Mr. Sears reviewed the history of the East Central and told of the part he had taken in building up the institution. He says that he regrets to leave an institution to which he has given the best of his life, but he wants to teach Bible in a Bible school, and is going back to the work he loves. He says his father and mother educated him for the ministry, and he believes it his duty to answer the call that has come to him, offering him an opportunity for greater service.

Mr. Sears has been a popular member of the faculty, popular with both members of the faculty and members of the student body. He is recognized as an authority in history, his specialty being Old Testament lines.

President Gordon in chapel this morning said that the Normal is losing two mighty good men and it will be difficult to find others to fill their places. They will continue in the East Central Normal until September 1.

General Pershing Has a Busy Day at Houston, Tex., Today

By the Associated Press: HOUSTON, Tex., Feb. 5.—General John J. Pershing faced a busy day in Houston when he arrived at 7:30 A. M. In the welcoming party was Gov. W. P. Hobby and prominent local citizens.

The general's program included a luncheon at the Rotary club, a public address at the city auditorium, a public dinner tonight and Shrine Temple.

General Pershing will be in Dallas tomorrow, and Sunday will be the guest of Fort Worth, leaving Sunday evening for Ft. Sill, Oklahoma.

GERMANS REFUSE TO GIVE UP HEADS

MINISTRY OF DEFENSE SAYS DELIVERY OF WAR LEADERS TO ALLIES IS IMPOSSIBLE.

By the Associated Press: LONDON, Feb. 5.—"The surrender of these men is virtually impossible," said Minister of Defense Noske in an interview with the Daily Mail Berlin correspondent in discussing the demands for the extradition by the allies of Germans accused of war crimes.

"This demand is an act of resentment worse than of Shylocks," he continued. "Suppose that I succeeded in getting the men arrested, do you think the train taking them to France would be allowed to cross the frontier, and if robbers help up that train do you imagine that the Germans would be handed over to the ravage of the enemies? The Berlin government might resign, but what party could take its place?"

Mrs. Fred Brydia Dies of Pneumonia Early This Morning

Mrs. Fred F. Brydia, who was taken to the hospital only yesterday morning with a sudden attack of pneumonia, died there at 4:30 this morning.

Mrs. Brydia has been in poor health for several years and her constitution was such that she was able to withstand the attack of the terrible disease only for a few hours.

The family has resided in Ada for about eleven years and their friends are as numerous as are their acquaintances. Mr. and Mrs. Brydia were both members of the Methodist church, popular in every social circle and loved by all who had the pleasure of their acquaintance.

Mrs. Brydia was formerly Miss Jessie F. Ramsey, of Fairbury, Ill., where her parents now reside, and it was to that point the body was shipped today for funeral and burial. Besides her husband Mrs. Brydia leaves the only child, Marvinne, a beautiful little daughter of thirteen years, to mourn her departure. This entire community joins the grief stricken husband and daughter in their bereavement and extends a most profound sympathy.

Atlantic Seaboard States Under Heavy Blanket of Snow Now

By the Associated Press: WASHINGTON, Feb. 5.—States along the Atlantic seaboard from southern New England to Virginia were snowbound today as a result of the worst snow storms of the winter. The weather bureau announced that the heaviest fall was in Pennsylvania where from 11 to 12 inches were registered.

The snow was accompanied by sleet and a high wind. Moderate temperatures prevailed generally and in some sections this morning the snow had turned into a fine rain.

A LYNCHING WAS BARELY AVERTED

ACTION OF GOVERNOR AND THE COOLNESS OF SHERIFF PREVENT LYNCHING IN FRANKFORT, KY.

By the Associated Press: FRANKFORT, Ky., Feb. 5.—Prompt and decisive action by Gov. Edwin P. Morrow and the coolness of Sheriff Moore of Franklin county, averted serious trouble between state reformatory guards, deputy sheriffs, policemen and several hundred farmers, who came here last night bent on lynching Will Lockett, a negro confessed murderer of Geneva Hartman, a school girl.

Notified that the mob had formed at Lexington and was enroute to get Lockett, Governor Morrow hastened to the reformatory and took charge. Guards and other defenders were assembled within the walls and Sheriff Moore was dispatched to meet the mob. As a long string of cars ascended the hill to the prison, they were halted by the sheriff who appealed to the men to let the law take its course and gave a warning of the consequences that might follow their further attempts to get the negro. The men were finally turned back and no further trouble was anticipated.

INDIANS HOPE TO LAND ANOTHER UHLE AMONG SANDLOTTERS

By NORMAN E. BROWN

Convinced by the phenomenal success of George Uhle in the 1919 campaign that the sandlots of Cleveland must harbor other big league material, Manager Tris Speaker of the Indians has signed up two more of the amateur stars for tryouts this season.

These two boys are George Cykowski, who pitched under the name of George Cy, and Lefty Kahoun. The death of Kahoun's father will

delay his trial with the club, but George is to hit the trail to New Orleans with the first squad.

Speaker is a wise enough head to know that he may look several seasons before he finds another rookie on the sand lots who can become a regular and winning hurler for his team as did Uhle last season. But Cy looks mighty sweet to Tris.

Cy started his hurling career back in 1917, when he won all seven games he pitched for a high school team. The next season he broke in-

to the amateur ranks with a short-pant team and won sixteen of twenty games he pitched for them. Last year he moved up into second highest grade of amateur teams and, with the St. Stanislaus church team, won twenty-two straight games. He allowed only about five hits a game and fanned fourteen and fifteen each game. His win and loss record for the three seasons is forty-five victories and four defeats.

He's a right hander, weighs 155 pounds and is quite a heavy hitter. The new ether, Dr. Cotton asserts, is really a development of ether that was discovered years ago, but it acts more quickly, almost entirely eliminates nausea and allows even major operations, such as removal of the appendix, to be performed without the patient's either feeling pain or losing consciousness. It is said to be valuable in childbirth, relieving the mother of much suffering, though it does not remove all sensation of pain. Perhaps its queerest effect is that when a certain amount is administered, the patient becomes incapable of telling anything but the exact truth in answer to a question. The most hardened criminals, it is claimed, will give up their secrets under its influence.

Some methods of administering the ether, Dr. Cotton says, do not differ greatly from the familiar ones. Others are as simple as the donning of a mask. A reporter stuck pins into a man equipped with such a mask, with no apparent effect other than to amuse him.

Experiments in developing the new ether lasted for years, and were laughed at by many of the foremost medical men. The first promising results were obtained in May, 1916, when a number of animals were relieved from pain without going to sleep. At this time it cost \$50 a pound to manufacture the material, and it took three weeks to make a pound.

The West Indian crab is a remarkable creature. Although born in the sea, it matures in fresh water and passes its adult life on land. One of the choicest delicacies in Jamaica is a huge white worm found in the heart of the cabbage palm. When cooked it tastes like almonds.

KANSAS CALLS ALL NURSES IN STATE FOR FLU PATIENTS

TOPEKA, Kans., Feb. 4.—The Kansas board of health has issued an appeal to the trained nurses of the state and those with some practical training to volunteer for service in the fight against influenza.

The appeal said: "The state of Kansas lost, from all causes, fewer than five thousand men in service during the duration of the war."

"The state of Kansas lost 12,095 citizens from 'flu' and pneumonia during the epidemic of 1918 and 1919."

"Today there are 11,370 active cases of 'flu' in the state, several thousand new cases occurring daily."

"The medical and nursing service of the state is overwhelmed. The time has come for a new war emergency service—a war against an invader more powerful and deadly even than the Hun."

Twenty deaths from influenza or pneumonia complications, thirty-eight new cases of pneumonia and 4,481 new cases of influenza were reported to the state board of health between 4 P. M., Saturday, and the same hour Monday, including 2,458 cases covering the entire week that had not been reported.

The disease leaped up in Topeka yesterday, sixty-four new cases being reported, with two deaths. Other deaths reported were five in Kansas City, Kans., three in Wichita, and three in Lawrence.

HOPE TO RATIFY WITHIN TWO WEEKS

WASHINGTON, Feb. 4.—President Wilson and Secretary Tumulty today had a long talk about the treaty situation, it was learned at the White House. Tumulty, it was understood, gave the president a full report on the outlook on the new treaty fight which will start Monday when the pact goes onto the senate floor for debate. New instructions to Wilson's supporters in the senate may result.

WASHINGTON, Feb. 4.—Treaty ratification by two weeks from next Monday, is the plan of the senate. Senators are prepared to adopt cloture, if necessary, to bring it about. Democratic assistance in the passage of an amended cloture rule has been promised.

The imperative necessity of passing a certain amount of legislative bills must be enacted by June 30. The railroad bill is coming from the conferees in a few days. It must be enacted by March 1, when the railroads go back to their owners.

Convention June 6.
The republican national convention meets in Chicago June 8. Republican leaders are determined that essential legislation shall be cleared away by June 1 and an adjournment of congress taken.

Senator Lodge is seeking the help of Senator Underwood, one of the foremost advocates of compromise on the democratic side, in his effort to hasten the treaty thru.

Lodge is doing all he can to get Underwood elected democratic leader. Lodge has done what he could to get Senator Hoke Smith of Georgia to vote for Underwood.

Smith holds the deciding vote to break the deadlock between the Hitchcock and Underwood forces.

Don't neglect signals of distress in the kidneys. Backache, nervous disorders, pale complexion, dark rings about the eyes, mean kidney trouble. Begin promptly taking Prickly Ash Bitters; it is a kidney remedy of the first class. Price \$1.25 per bottle. Gwin & Mays Drug Co., Special Agents.

Auto Licensees Ready.
Auto owners may now get their auto licenses for the present year making application at the sheriff's office. This matter is important and should be attended to at once.

Postponement of the age of long trousers would save millions of yards of cloth annually, according to the International Association of Clothing Designers. But would the saving on cloth more than offset the outlay on long stockings?

POSTMISTRESS AND "CITY FELLER" NABBED WHEN FUNDS DISAPPEAR

CHICAGO, Feb. 5.—(Special)—A "romance trail" that wound through numerous winter show places ended recently for Chicago postoffice inspectors with two arrests in Cleveland. They invaded the lobby of a hotel there and took in custody Irene Elizabeth McAuliff, the fugitive Franklin Park postmistress and her "city feller", Merrill Inks.

For more than two weeks the entire postoffice organization had been on the lookout for the belle of the Chicago suburb, who, it is said, had found the glamour of midnight cabarets, her handsome stranger's chummys, and the city's white lights too great a temptation.

It was on January 12 that Postal Inspector Clara had dropped in at Franklin Park to make an audit and found a deficit of about \$13,000 in the post office accounts. On that morning the Franklin Park postoffice window was closed and it was found its postmistress had flown.

Bare Inky Trails of Inks
Investigation showed that Inks also had disappeared. The police remembered his name as that of a west side "slicker" who not long before had been booked for stealing towels from a Rockford hotel. His Chicago sweetheart declared he had been "vamped" by the suburb belle, drawn into the postoffice intrigue against his will.

Postal inspectors and amateur detectives at once took the trail of the chummy roadster in which Inks and Irene had flitted when the postoffice closed. It led to an automobile dealer, who said he had refunded the first payment on the car when Inks appeared and said he was going to Cuba. Then the trail was lost.

Two days after the elopement, Inspector Albert E. Germer reported to his chief, Gen. James E. Stuart, that a couple answering the fugitives' description had boarded a Wabash train for the south on Sunday night, January 11.

Hide Identity With Alias
They were traced to St. Louis and

lost again. Inspectors working on telegraphic tips then went to Hot Springs, Ark., where they found traces of the runaways in two of

the leading hotels. From Hot Springs they were traced to Memphis, then to Cincinnati and at last to Cleveland.

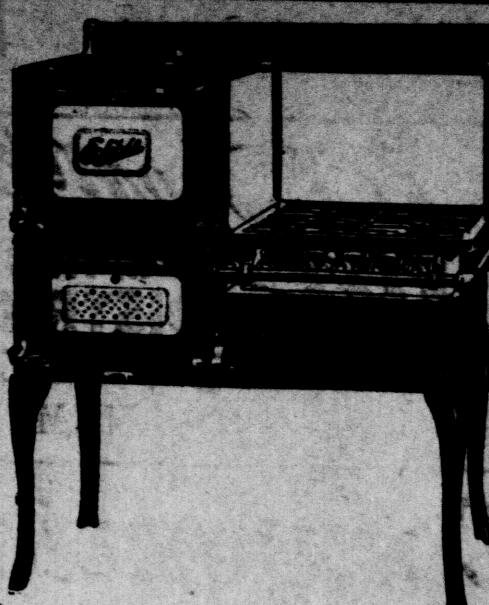

When Chinese parents arrive at about the age of 55 their affectionate sons and daughters club together and give them each a coffin, and wish them many happy returns of the day. Coffins are to be seen in many houses in China, some of them being utilized as wardrobes.

It is estimated that as a rule married men live seven years longer than bachelors and wives five years longer than spinsters.

HE DID NOT BELIEVE IN ADVERTISING

When his local newspaper solicited him for advertising he shrugged his shoulders and said: "Why should I spend good money in that way? Everybody knows who I am, where I am and what manner of merchandise I keep."

Rather stupid philosophy, eh?

A man may be "acquainted" in a community but his virtues may not be known.

A man's place of business may be known but people may not go there.

A man's merchandise may be known to people, but they are not necessarily buying freely of it.

Personal opinions and judgments must play second fiddle to the larger elements of life.

Percentages are mighty strong things.

They constitute uncontrovertible evidence.

We once heard a man say that there was just as much sickness and disease in the world as ever there was in the old days and that doctors were losing as many patients.

But the written record of percentages shows that there is less disease and a vast increase in the number of lives lost.

Stubbornness never made any man right.

Look down the line of conspicuous retail and manufacturing successes and you find, without a single exception that Advertising has been employed, has been respected, has been the driving power.

Why attempt to fly in the face of Fact.

The magazines and newspapers are the Courts in which Advertising has been tried.

The Public and the merchant have judged.

And the statute books show that the defendant is justified in his contention. He has made good.

On every shelf in every store, are the mute tributes to Advertising.

What business the merchant now does, is largely because of Advertising.

People ask for trade marked brands. Advertising has brought discrimination.

Argue against it, if you will, but you are woefully, athetically alone. You are arguing with YOURSELF not with the world.

OSAGES GET THREE MILLION DOLLARS

ANOTHER BIG SALE OF LEASES GREATLY ENHANCES EX-CHEQUER OF ALREADY WEALTHY TRIBE

By The Associated Press
PAWHUSKA, Okla., Feb. 4.—
"Poor Lo, the Indian," is getting richer.

Sale of leases in the Osage nation yesterday brought \$3,102,000 to be divided between the 2229 original reds. At the government auction of leases big operators competed with little ones who risked their all. The bidding at times appeared to the unsophisticated observer as pure recklessness.

\$222,000 Highest Paid.
The highest price paid for a lease was \$222,000 by the Phillips interests, while the Marland people took on a lease at \$201,000 in spirited bidding with the Phillips crowd in which the latter hiked their bid \$5000 for every 1000 boost by the former.

The big bidders ran up their offerings by thousands with a mere nod of the head. But little fellows at

chewed unlighted cigars to rags, tapped the floor nervously, their faces flushed the while.

One confided to a stranger that he had sold his house and lot to buy a lease.

"It means either wealth or—but, God, I mustn't fear already, I've got to win."

But in this battle for leases there was room for chivalry.

Newspaperwoman Buys One.

The bidding on a certain tract started at the usual \$1000 and moved up to \$1400. A woman's voice bid \$1500. It came from the press table—Miss Rosella Flanagan—Tulsa newspaper woman.

"Sixteen hun—" was as far as a man nearby got.

"Shut up, let her have it," was the cry.

When the applause died down the auctioneer announced:

"Sold for \$1500," and so Miss Flanagan got a lease "scouts" say is worth many times that amount.

COMMISSIONER DEAL IS GIVEN VOTE OF THANKS

The Board of Education at the regular meeting Monday evening February 2nd voted to commissioner P. H. Deal and his department a vote of thanks as an expression of appreciation of interest shown in providing temporary side walks and street crossings to the new school building and also for his aid in leveling and grading the grounds at the building.

Tim Hendryx

By NORMAN E. BROWN

Tim Hendryx, former major league outfielder, and the leading batter of the American Association, is booked to come back to the big show this year.

Hendryx slugged his way to a .368 average last season with the Louisville club.

Hendryx broke into the limelight in 1914 and 1915 by his heavy hitting and all round playing with New Orleans in the Southern league. If memory serves me right, Cleveland had him on its roster for a time. The Yanks finally obtained him in 1916 and he batted close to .300 in sixteen games for them. He was with the Yanks in 1917 too, and then drifted back to the minors.

A Car For Every Two Families Now Have You Got One?

And now comes the news that one out of every two families in Ada will have an automobile by January, 1921.

At least that's what the figures showing the increase in the percentage of car owners in Oklahoma indicate.

Official figures show that there are 25.8 per cent more motor cars in this state than there were in 1918, and at this rate of increase one out of every two households should own a car by the first of next year.

Statistics who have just completed a count of the motor cars in the United States show Oklahoma as having 120,000 in 1918 and 151,000 in 1919. The state ranks eighth in the rate of increase for the years 1918 and 1919.

In into every one removes his hat on seeing a flash of lightning.

GUARD YOUR LUNGS WITH LUNGARDIA

Influenza is again sweeping the country. LUNGARDIA has proven its wonderful merits in thousands of cases of Influenza and its after effects, also in Acute Pneumonia, deep seated Coughs and Colds, Bronchitis, Throat and Lung Troubles of all kinds, for Croup it is indeed the mother's best friend. We invite the physicians test, and ask you to give it to the cases as above stated, you will marvel at its wondrous power. Containing neither Alcohol, Narcotics or Opium, it is safe for the little ones. The best of druggists sell and recommend it, but a bottle today.

GUARD YOUR LUNGS WITH LUNGARDIA

News Notes From Movieland

By DAISY DEAN

Madge Kennedy has a particularly suitable part in her newest picture, "Two Cent's Worth of Happiness." She plays the part of "Hazel," a little girl with stage ambitions. Miss Kennedy is always sure to be delightfully refreshing in her character portrayals and she is so real that she makes you feel she is a "regular girl" and you would like to know her and play around with her or help her out of her usual predicaments.

In the picture Hazel has to cook beans over the gas jet in her hall bedroom and Miss Kennedy decided to try the beans when she was making the scene and the whistle blew for lunch time. The camera man caught her in the act and hence

Madge Kennedy and her director Harry Beaumont

the picture. Director Harry Beaumont may look as if he is panning the beans but he isn't. He tried them and said he thought they were pretty good for an amateur cook. The camera man said he was sorry but he would not even eat a bean cooked by the famous Miss Kennedy because he was in the army and now cannot look a bean in the face.

THEBA BABA ON STAGE
Theba Baka is to make her debut on the speaking stage at Far Rockaway. The Woods office has set the date for Feb. 13. The attraction that she is to be exploited in is "The Blue Flame."

JUST GOSSIP
Rupert Hughes' "Scratch My Back" will be a 1920 screen offering.

Eugene Pallette will be Viola Dana's leading man, in the Screen Classic picture, "Parlor, Bedroom and Bath," following "Eliza Comes to Stay."

Naomi Childers, leading woman in Goldwyn plays, denies that she is engaged to marry Luther Reed, scenarist writer for Thos. H. Ince.

THE DEMON GRIPPE
Dorothy Dalton has recovered from her brief tussle with the gripe and is back at work on "Half an Hour," Sir J. N. Barrie's play which was held up while she was sick.

TO EUROPE
In May some boat will carry a number of interesting passengers across the big pond. John Emerson, Anita Loos, Marjorie Rambeau and Hugh Dillman are among the number who have planned to take the trip. This motion picture excursion is going to stop in London and look over several interesting offers that have been waited in their direction. The party, planning this little voy-

age grows; in fact, so many picture folk have signified their desire to join it it may become necessary to charter a special boat. Chartering a special boat sounds grand, doesn't it, even for lavish and extravagant film land.

SHE'LL VAMP AGAIN

Louise Glaum is again going to become a vampire of the screen. Her next vehicle is to be Sardou's famous "Theodora," and it is planned to take six months in the making of it.

Stop the Tickle

LOCOMOTIVE WITH PLANE PROPELLER BUILT TO SAVE COAL ON GERMANY'S RAILROADS

A car equipped with the airplane propeller. The inventor is shown standing at the edge of the platform with his hand on the rail.

Inspired by the shortage of coal in Germany, Otto Steinitz, Berlin engineer, has designed a railroad locomotive with an airplane propeller, driven by two aerial, 250 horse power, engines. It is said to be able to travel 130 kilometers an hour and consumes but 500 grams of benzine per kilometer.

A STITCH IN TIME, ETC.

The old adage that "A stitch in time saves nine" will apply to this community at this time as it has never, probably, applied before.

Without any desire to put a scare into anybody, the News wishes to call attention to the fact that there is every indication that the dread "Flu" epidemic has struck the country with the same ferocity and violence as last year, with the possible exception that up to the present it has not taken the same percentage of toll in death.

The fact remains that every possible precaution should be used right here in Ada, and used right now.

If your premises are not clean from cellar to garret and from the front yard fence to the back, it is your duty to see that they are cleaned and fumigated at once.

Then, when that is done, it is the duty of the city and county health officers and public officials to see that the streets and alleys and all public places are cleaned thoroughly and without delay.

No matter what the nature of the disease may be, the fact remains that cleanliness is the greatest of all preventatives, and preventatives are what are wanted at this time.

The streets and alleys are by no means in a sanitary condition, but the people will stand by the authorities in the expenditure of any reasonable sum, from any fund, to see to it that they are put in such condition and that speedily.

Individuals should exercise every precaution possible to prevent the spread of the disease. Frequent baths are recommended; do not expose yourself uselessly; keep well wrapped when out of doors; do not expectorate on the streets nor cough and sneeze in public without the use of a handkerchief.

There are a hundred and one simple little precautions which we all know and should religiously observe during this time of crisis and great danger. Let us be on guard and do all in our power to not only protect ourselves but to protect others.

SUMMONED TO THE BAR

Even up to the last Presidential election the vote of the Prohibition party was so small that it was not taken seriously, which shows that you never can tell what time's whirligig may bring to pass within the briefest succession of seasons. For now we not only have constitutional prohibition for the entire country but the head of the prohibition forces occupies the position of an American Warwick, or President maker, summoning all candidates to appear and declare their faith in no uncertain terms. The consequent squirming among Presidential aspirants is visible even to the naked eye, for there is no question they would so much like to sidestep. They want the endorsement of the "dry" powers and yet they desire the good will of the numerous "wets."

In his reply Dr. Nicholas Murray Butler makes confession as follows: "I have long believed the saloon to be a public nuisance that should be abated. I have not supported prohibition for the reason that I did not believe it either a just or a proper way to deal with the problem." He then goes on to give assurance that, though the eighteenth amendment may be debated in Congress or argued in the courts, it is "a closed issue" so far as the Executive department is concerned. This will neither rouse enthusiasm among the "wets" nor even begin to satisfy the "drys", and Dr. Butler's chances of the nomination may be regarded as nil. But among the non-partisan his courage and honesty will be widely appreciated.

Keep your eye on the fellow that has nothing more to do than to horn into somebody else's business all the time. He'll take something that doesn't belong to him one of these days and you'll have a chance to soak him in the police court.

The trouble with the "Flue" is that it kills the fellow who attends to his own business just as readily as it does the fellow who is always hanging around advising us what we should or should not do, or how we should wear our morals.

A statesman is a man who makes laws—a politician is a man who hangs onto his job by talking about laws that ought to be.

Yes this is a free country—that is you are free to do whatever the gang in contro' happens to want you to do.

People are still discussing the prohibition question, but it's seldom you ever hear much about the issue of slavery.

The State Press

Our idea of a crisis is anything that would keep congress from adjourning in time to get its mileage. —McAlester News-Capital.

Some of the professional politicians are afraid of Herbert Hoover. He might make them bite the dust. —Oklahoman.

With Colonel Bryan demanding that he state his platform and Senator Reed demanding that he name his party, Mr. Hoover finds himself in a delicate position. —Tulsa World.

Senator Reed says that Mr. Hoover couldn't carry a single state as presidential nominee. Wonder how many states Senator Reed could carry—we mean, how many counties? —Ardmoreite.

This is important if true: The Ardmoreite relates the story of a Missouri woman 100 years old, who can remember when eggs sold for three cents a dozen. But why make odious comparisons? —Durant Democrat.

If the republican party of this state is determined to commit suicide right in the face of possible success it has only to add a victory for Jake Hamon to the faux pas of Congressman Harrell and the thing is done. —Muskogee Phoenix.

So far as we can see, there is no particular reason why Governor Robertson does not call a special session of the legislature to vote on ratification of the federal suffrage amendment—no particular reason unless it be that the governor personally is opposed to equal suffrage. —Ardmoreite.

The citizens of this town cannot consistently talk hard surface roads for the county until more streets are paved. This paper is pleased to see the activity in street paving that is now let in Vinita. If the paving already let to contractors can be pushed and finished it will help others to decide on paving. —Vinita Journal.

State Senator Tucker stated at the democratic convention Saturday that Attorney General Freeling, who is a senatorial aspirant, is opposed to votes for women. If that be so, what's the matter with the Freeling mentality? Surely no man in his senses would have the nerve to announce for the United States senate nomination and at the same time let it be known that he believes that at least one-half of his possible votes should not be permitted to go into the ballot box. —Ardmoreite.

Very few persons seem to be opposed to the calling of a special session of the state legislature if it is called for the sole purpose of ratifying the woman's suffrage amendment to the federal constitution. Several state legislatures have been called for no other purpose, and in some of the states members of legislatures have convened without expense to their states long enough to ratify the amendment. That is what ought to be done in Oklahoma. But it should not be used as an excuse to let down the bars for an expense session. —Vinita Journal.

Ain't It Awful, Mable? Attorney General Freeling declares that he is against the ratification of the equal suffrage amendment, entirely opposed to the governor's calling a special session of the legislature for that purpose, and declares, "furthermore, I am not in favor of woman's suffrage." "Well, well, well, ain't that awful, Mable?" Where did this great, proud, progressive state of Oklahoma dig up such an antiquated has-been for attorney general as this? Freeling is as out of date as a last year's bird's nest. He belongs to the embalmed past and not in the capitol of such an advanced twentieth century state as Oklahoma. —Tulsa Tribune.

Instructed Delegates. There are times when failure to instruct delegates may thwart the will of a party and the dominant desire and intent of the convention electing the delegates. It is as reprehensible for uninstructed delegates to misrepresent their constituency as it is for an organized, or tricky minority to secure instructions that are not the will of the majority.

In granting women their place in party government it is wise to concede them the greatest freedom of action, but it is also wise for the will of the majority of the party and the sense of the convention to be expressed. In the republican county convention Thursday no effort should be made to arbitrarily bind delegates, but the convention should, by all means, clearly express its convictions on the pertinent issues pertaining to the delegates' duties. This involves at least respect for the injection of a religious issue in the party, council, a commendation of General Wood's candidacy and a demand for constructive leadership and a constructive party program in Oklahoma. —Bartlesville Examiner.

We will pay the highest price for second-hand furniture and stoves. Phone 53.—Conley & Son. 1-15-17

ONE MAN GUILTY IN NEWBERRY CASE

ALLEN MOORE PLEADS GUILTY TO FIRST FOUR COUNTS IN THE SIX RETURNED AGAINST HIM

By the Associated Press
GRAND RAPIDS, Mich., Feb. 5. —Allen K. Moore, first of the indicted men to testify, was called to the stand by the government when the Newberry election conspiracy trial was resumed in federal court here today. Moore pleaded guilty at first to four of the six counts and not guilty on the others. On January 26 he changed his plea to "no contest."

Moore told of a trip to Detroit with Charles Floyd in charge of the local Newberry headquarters, at which time Paul King asked him to visit the upper part of the state and sound out certain individuals on the Newberry candidacy.

Moore said B. Frank Atkins at Floyd's orders gave him \$100 for expenses and he received a check for that amount.

SUMMERS CHAPEL

We have had some nice weather the last week which was very much help to the farmer's in gathering their crops.

Frank M. Lynn preached at the Chapel Sunday. This was Mr. Lynn's third time to preach. Everyone seemed to enjoy the sermon real well.

Quite a number of this community attended church at Parish Chapel Sunday night.

Quite a bit of moving took place last week.

Miss Cleo Norman, primary teacher at this place went to Ada Wednesday and took the examination. She returned Sunday. Miss Flossie Summers of Maxwell taught the primary room while Miss Norman was gone.

The school will give a pie supper on Friday night, the 16th, for the purpose of buying a basketball and song books for the school.

Sunday school was real good Sunday. Let everyone do their best to make a good Sunday school.

A READER.

Ada Boy Enlists With "I" Company At Camp Pike, Ark.

News comes to postmaster Westbrook of the enlistment in Company "I" of the 4th Infantry, at Camp Pike, of Willie E. McEwin, of this city. The letter follows:

Company "I" 4th Infantry, Camp Pike, Arkansas, February 2, 1920. The Postmaster, Ada, Oklahoma.

Dear Sir: I wish to inform you that one excellent appearing young man from your city was enlisted at Camp Pike, Arkansas, recently, for Company "I" 4th Infantry of the Third Division stationed at this Camp. His name is:

Private, Willie E. McEwin, Ada, Oklahoma.

"I" Company is glad to welcome

GOLD FISH

The Finest collection of Gold Fish just received in all sizes. Each fish selected for color and markings.

Most reasonable prices on both fish and supplies.

MRS. P. R. LEDBETTER
428 W. 13th St.

(Call early as best deal will go first)

clean cut young men like this to their organization and we need to have no fears as to the future of our Nation when our Army is composed of red-blooded Americans of his calibre.

Upon his arrival in this Camp this young man was urged to take advantage of the wonderful educational advantages now offered by the Camp Pike, College.

Also this young man will be given a furlough in the near future in order that he may visit his home, as it is the purpose of the Army nowadays to maintain close relationship between various regiments and the cities that furnish recruits for these organizations.

Yours very truly,
THOMAS J. JACKSON,
1st. Lieut. 4th Infantry

Deaths.
L. B. Atkinson, a former resident of Ada, died in Ardmore yesterday. The body arrived in the city this morning on the Frisco.
The funeral services will be held tomorrow at the Criswell Undertaking Parlor at 11 o'clock. The W. O. W., of which he was a member, will have charge there and the burial will take place at Rosedale Cemetery.

Attend the Pure-Bred Stock Sale February 12th to Be Held at Bud Gregg's Mule Barn

The New Suits

The salient feature of the Suit Styles for Spring is the length of the jacket with the shorter length dominant. Our displays include several types which introduce coats with belts and ripple peplums, or jackets of the Eton and pony types with trimming of close-set rows of buttons on sleeves and at the sides, or with braid and embroidery effectively used. Several models show vestes of brocade or novelty silks. Suit skirts are somewhat shorter and can be either pleated or plain. Polart twill, tricotine, serge and gabardine are the principal fabrics in rich dark colorings.

\$29.50 to \$75.00

The New Coats

Our displays include interesting interpretations of both the utility coats and sport coats of shorter length, with a plentiful showing of belted models, in both types. Many of the luxurious cloth fabrics of winter have been reproduced in lighter weight for Spring such as silvertone, velour, and novelty wool fabrics. Some very exclusive styles have made their appearance in tricotine, serge, polart twill and polo cloth. Indeed the latest whimsies of fashion are adapted in these garments. All show an excellence in tailoring.

\$19.50 to \$49.50

The New Dresses

Every Spring occasion, every individual taste and requirement are happily remembered in this assemblage of new frocks. The straight line type is still popular with the addition this season of the more fitted lines as shown in several of our afternoon and evening dresses. The fuller hip line is noted in many delightful variations by the clever use of pleatings and ruffings, or by the effective draping of materials. Waists are fitted and skirts are shorter and fuller—with much thought given to individuality in styles. Several frocks are shown in the ever-popular crepe Georgette and satins richly embroidered.

\$19.95 to \$69.50

MOSER'S DEPARTMENT STORE

Modes for Springtime are both simple and elaborate, colorful and conservative in hue and picturesque; all chic and refreshingly new. Our fascinating array of Suits, Dresses, Skirts and Coats, reaching greater proportions as each day goes by, is one that appeals to all well-dressed women; those who demand styles that are unquestionably correct.

New Dresses in Variety

With the additional shipments placed in stock the past week, we have Spring Dresses for street wear and beautiful Afternoon Frocks in a wide range of selection—and marked at many different price stages.

—TAFFETAS
—TRICOLETTES

—METEORS
—GEORGETTES

Taffeta Frocks with sleeves short and varying lengths, a mass of frills, ruffles and pleats—skirts with distended hips—at prices ranging from—\$22.50 to \$65.00.

Silk Tricolettes in Navy, Black, Brown and Taupe, for afternoon wear, marked from \$45.00 to \$75.00.

Afternoon Dresses of Georgette, the new season's most distinctive types—dainty colorings; crystal and colored bead trimmings—priced from \$29.50 to \$55.00.

Hobson Cloer left yesterday for Burkburnett, Texas, where he expects to go into the bakery business. Mrs. Cloer will follow a little later.

Mrs. W.W. Kemp of Stratford was visiting friends in the city yesterday and left on the 4:10 Katy for Kiowa, where she will visit for a few days.

The wife and two daughters of S. L. McClure, of the Model, who are ill with the flu, are reported better today and getting along nicely.

Mrs. O. F. Gaskill of Denison, Tex., left yesterday for a visit with relatives in Oklahoma City after visiting relatives in Ada for the past few days.

J. J. White of Oklahoma City, connected with the Daily Oklahoman, is in the city today transacting business pertaining to the Oklahoman.

Mrs. A. Stauffer has just returned from a pleasant visit with her daughter, Miss Gladys Stauffer, who is a nurse in the University Hospital, Oklahoma City.

W. C. Reid, formerly of Foss, Okla., was visiting A. M. Waddill and family yesterday while enroute from French Camp, Miss., to Foss, to remove his family to French Camp.

P. H. Deal, city street commissioner, who has been ill with the flu, is reported better this morning, but his little daughter is reported to be on the verge of pneumonia. Mrs. Deal is also indisposed.

Mrs. T. D. Young of Ponca City who has been in the city for some time visiting her parents, Mr. and Mrs. Will Brown, was called home today on account of the serious illness of her husband.

The three children of Rev. C. V. Dunn, pastor of the First Christian Church, are reported to be ill. Winifred, who has been quite ill, is improving and Charles Marian is reported to be some better today. Mrs. Dunn and the baby are neither well.

New York Starts to Dig Itself Out of Snow Drifts Today

By the Associated Press
NEW YORK, Feb. 5.—New York today started to dig itself out of the most severe snow storm of the winter. Snow, hail and sleet, carried on a 50-mile gale, fell steadily during the night and early morning, clogging the streets with great drifts, demoralizing street car traffic, delaying train service and severely impairing navigation in the harbor and causing intense discomfort to pedestrians. The wind smashed many plate windows in stores along Broadway.

WARNS NATION OF RED PERIL

U. S. Department of Justice Urges Americans to Guard Against Bolshevism Menace.

CALLS RED PLANS CRIMINAL

Press, Church, Schools, Labor Unions and Civic Bodies Called Upon to Teach True Purpose of Bolshevism Propaganda.

Washington.—Calling for the patriotic support of all true Americans to fight to protect their homes, religion and property from the spreading menace of Bolshevism, the United States Department of Justice has issued a warning against the insidious propaganda of the "Reds" during the new year. It reads:

"It would be extremely helpful to the cause of good government, the maintenance of law and order and the preservation of peace and happiness in our country if the people on this New Year's day would resolve to study, understand and appreciate the so-called 'Red' movement. They can counteract it most effectively by teaching its purpose through the press, the church, the schools, patriotic organizations and labor unions, all of which are within the range of its insidious attacks.

"The 'Red' movement does not mean an attitude of protest against alleged defects in our present political and economic organization of society. It does not represent the radicalism of progress. It represents a specific doctrine—namely, the introduction of dictatorship over by force and violence. It is not a movement of liberty-loving persons, but a distinctly criminal and dishonest movement. Lenin himself made the statement at the Third Soviet Conference, 'Among one hundred so-called Bolsheviks there is one real Bolshevik, thirty-nine criminals and sixty fools.' It advocates the destruction of all ownership in property, the destruction of all religion and belief in God. It is a movement organized against Democracy and in favor of the power of the few built by force. Bolshevism, syndicalism, the Soviet Government, sabotage, etc., are only names for old theories of violence and criminality.

Russian Labor Crushed.
"Though their adherents in this country are advocating and fomenting strikes, Lenin and Trotsky forbid strikes, and trade unions are being broken up and completely subordinated to the will of the few demagogues in control in Russia. This Bolshevik experiment on the living body of the Russian people has not proven in any sense of the word an experiment in Democracy. The Bolshevik leaders frankly repudiate democratic principles as we understand them. It has been a gamble which meant for Russia, and, indeed, for the whole of humanity, enormous losses in lives as well as in material resources. The Bolsheviks have run up a colossal bill which the Russian workmen and peasants will have to pay.

"Reds' Menace America.
"Having lived at the expense of the Russian people for two years, these speculators in human lives and other people's earnings are trying to move to new fields to the east and to the west, hoping to take advantage of the economic distress and confusion of mind in which humanity finds itself after the terrific strain of five years of war.

"Its sympathizers in this country are composed chiefly of criminals, mistaken idealists, social bigots and many unfortunate men and women suffering with varying forms of hypersthesia. They are enemies of the government, of the church and of the home and advocate principles which mean the abolition of all three of these safeguards of civilization.

Would Rob Everybody.
"Twenty million people in this country own Liberty Bonds. These the 'Reds' propose to take away; 9,830,000 people in the United States own farms and 3,838,000 more own homes, which they would forfeit; 11,000,000 odd people have savings accounts in savings banks and 18,000,000 people have deposits in our national banks, at which they aim. There are hundreds of thousands of churches and religious institutions, all of which they would abolish. In other words, 110,000,000 hard working and saving people who own property, love liberty and worship God are asked to abandon all the ideals of religion, liberty and government, which are the outcome of the struggles of their fathers and their own development, and to place themselves, their homes, their family and their religious faith in the keeping and their property under the domination of a small group of Lenin and Trotsky.

Protection Promised.
"This department, as far as existing laws allow, intends during the forth coming year to keep up an unflinching persistent, aggressive warfare against any movement, no matter how disguised or dissembled, having for its purpose either the promulgation of these ideas or the excitation of sympathy for those who spread them. The movement will not be permitted to go far enough in this country to disturb our peace and well-being or create any widespread distrust of the people's government. It will fall away before the light of popular knowledge and appreciation of its aims and purposes.

Collier Plays His Last Card In Murder Case

It has just been learned that D. A. Collier, who was tried and convicted in this county for the killing of C. H. McFerron at Allen, May 21, 1916, has been denied a rehearing by the criminal court of appeals.

The court of appeals passed on his plea of insanity and self defense at Oklahoma City last Monday and both were denied. Collier is serving a life sentence in the state penitentiary at McAlester.

It is alleged that the killing of McFerron was one of the coldest blooded murders in the history of the county, and that at the end of the lawsuit the attorneys for the prosecution made an appeal for the death penalty.

At the time of the killing young McFerron was working in a drug store at Allen, when Collier came into the store in an intoxicated condition and demanded that the young man let him have alcohol. On being denied the alcohol in a gentlemanly manner, it is alleged that Collier pulled his gun and committed the murder. Excitement ran high at the time and when the case came to trial Collier was convicted and given a life sentence.

It is said that cypress and walnut or cypress and cedar, cause each other to rot when used in contact. There are fewer suicides in Ireland than in any other country in the world.

YE TOWN GOSSIP

DO YOU know that.
THIS THING of the.
WOMEN DOING all the.
POLITICS AND the men.
DOING ALL the work is.
JUST ABOUT to get my.
GOAT AND I don't mind.
TELLING YOU that I am.
ALL IN for it seems to.
ME THAT my wife hasn't.
BEEN HOME nights lately.
SINCE I can remember.
AND THE more I holler.
THE MORE conventions.
AND THINGS she goes.
TO AND when I stay at.
HOME THREE or four days.
ON A stretch and do.
ALL THE work and.
GET UP mornings and.
HUSTLE MY breakfast.
AND THEN go home at.
NIGHT AND hustle supper.
AND DO all the other.
CHORES THAT a man and.
WOMAN BOTH combined are.
SUPPOSED TO do I am.
JUST ABOUT all in and.
IF YOU'D believe me.

I'M NOT so sure whether.
THIS THING of women.
SUFFRAGE IS what it's.
CRACKED UP to be or not.
BUT JUST the same I.
AM GOING to keep whooping.
THINGS UP for the women.
AND MAYBE it will turn.
OUT AFTER awhile that.
THEY WILL have to.
TAKE ON such other.
JOBS AS making the.
LIVING AND paying all.
THE BILLS and staying.
AWAKE NIGHTS worrying.
ABOUT THE family debts.
AND KEEPING the automobile.
REPAIRED AND keeping.
THE HELP all satisfied.
AND PREVENTING strikes.
AND GOING to war and.
ALL SUCH small matters.
AS WE mere men have.
BEEN IN the habit of.
DOING AND if they do.
I BELIEVE we will be.
REPAID FOR letting them.
WEAR THE political pants.
AFTER ALL.
I THANK you.

Garden Hints To Amateurs

SMALL FRUITS IN BACK YARD

The high price of berries of all kinds during the past season should induce everyone with a little space at hand on the home grounds to grow his own small bushfruits, which can be grown in any soil which will grow a good crop of ordinary vegetables.

By bush fruits we mean the raspberry, blackberry, blueberry, wineberry, gooseberry and the currant. These fruits are well known to everyone but few of them are grown in our home gardens for home consumption, although in the gardens of our grandmothers they always had a place.

These bush fruits are divided into various families; of the raspberry there are four all of which should have a place in every garden a few of each being grown, but the main crop should be of such kinds as may best meet the requirements of the soil. The red, black, pink and yellow kinds, all requiring the same general treatment.

The yellow raspberry is used almost entirely for family use, as a dessert fruit, but it is not as popular as the others. It is rarely used for canning and preserving. The red and black ones are in greatest use among those who are fond of this delicious fruit. The black raspberries are commonly known as "black caps" and the red berries "red caps." These two kinds are the ones which are grown so extensively by the professional growers for the market, and choice fruits usually demand a ready sale.

The pink raspberry is grown almost entirely for canning purposes, for which it is considered the best variety, the berries being more plump and have fewer seeds than any other. You should at least have a dozen plants of each kind in your fruit garden or other suitable place which will enable you to enjoy these fine fruits for several weeks each season, provided you arrange your selection of varieties to prolong the season as much as possible.

The soil for bush fruits should be the best possible, thoroughly prepared, well manured, deeply dug and made fine and friable. I urge extra care in these respects so that you will be well repaid by choice fruits. Of course the location should be entirely free from shade, and competition with the roots and trees and shrubbery.

It will be well to order at once your young plants or roots of bush fruits, and get them from a reliable dealer so as to be assured that

they will be true to name, vigorous, and with a large mass of fibrous roots. For garden culture it will pay to get the best obtainable plants. In the home garden the raspberry is best grown by the trellis system. The trellises being six feet apart and the plants two feet apart in the rows, forming a continuous row system which usually gives one-third more fruit than the out-of-date hill system. Before setting out the plants, if it has not been done by the dealer, cut them back within six inches of the ground.

The trellises are made by setting posts twenty feet apart in the rows on which should be run a wire three and a half feet from the ground to which to tie the fruiting canes when they reach it. You will find this method both convenient and cheap and assuring excellent result. When growing raspberries by the trellis-system cut the canes back to five feet from the ground, and the lateral sprouts to fifteen inches in length.

Another system advocated by some growers is known as the "bush" in which the plants are set three feet apart without trellises and trained in bush form by pruning them in the summer to keep the leader to three and one-half feet from the ground and lateral branches started near the ground and kept to eighteen inches in length. It requires considerable pruning during the growing season but no other pruning is required. The plants should be robust enough to support themselves and hold up their fruits from the ground. The objection to this system is that the severe pruning makes them short lived, rarely lasting more than six or seven years, while with the trellis system they should be at their best for ten or twelve years after full bearing. By both systems the old wood should be cut out each year, as it has no further bearing value. Most experts agree that the best time to remove the old wood is immediately after it has done bearing. They should mature a full crop the second year after planting giving only a small crop the first year. Fertilize them annually and give clean cultivation, mulching the roots over winter, at points north of the latitude of New York.

The blackberry ranks second to the raspberry as the popular fruit. Prepare the ground in the same manner, and they require to be regularly pruned, removing the old wood and any surplus shoots. Constant cultivation will produce fine large fruits. They may be grown by either of the systems given for

raspberry, but being more vigorous in their growth they should be planted a foot farther apart. Mulch them over winter and do not prune after August, as fall pruning induce a growth of soft wood which weakens the vitality of the plant.

For currants prepare the ground the same as for raspberries, order the plants early, to be set out as soon as the ground can be worked. Insist on short, stocky well-branched plants, with a good mass of fibrous roots and cut the branches back one-half before planting. Plant them in rows five feet apart and four feet apart in the row, with the roots well spread out and tread down solidly after planting. Each year after the leaves have fallen, all the dead wood should be cut out, and cut off for best results. No branches should be permitted to grow from the inside of the shoots. The neglect of proper pruning will cause poor fruit in size and quality. Insist that the plants reach you in a dormant condition. They may also be planted out in the fall after they have dropped their foliage. The gooseberry is handled the same as the currant.

Watch for anthracnose and cane blight, fungus disease which may attack your bush fruits, and if they appear cut off the affected wood and spray the plants thoroughly with Bordeaux mixture which you can get in paste form, from your seedsmen. As a precaution, as soon as the foliage appears on the gooseberries spray with a solution of one ounce of potassium-sulphide to four ounces of water to prevent mildew, and later on arsenate of lead for the currant worm on gooseberries and currants. Get these from your seedsmen, ready to dilute.

BLANTON SAYS 6,000 STRIKES SETTLED IN FAVOR OF LABOR

By the Associated Press

WASHINGTON, Feb. 3.—Six thousand strikes occurring during the war were settled in favor of the strikers, Representative Blanton (Dem.), Texas, told the House today (Dem.), Texas, told the House today always sent out conciliators who were prejudiced. He was opposing a deficiency appropriation to pay conciliators.

"If the executive of that department is crooked and we know it, are we not responsible when we continue to put funds in his hands?" Blanton asked.

"I would not charge that the Secretary of Labor is crooked," Chairman Good of the Appropriation Committee interjected. "I served with him in the House. I would not make that charge. I thought he was a very able and straightforward man."

"You are not keeping up with his record in the Labor Department," Blanton retorted.

An organized clique of 5,000, 000 headed by Samuel Gompers is running the Government, Blanton continued, adding:

"Congress has always bowed to the dictator of the slaves of this country."

RIBBON TRIMMING SMART FOR SPRING

By ELOISE

Ribbon trimming is coming into its own again. It is being used on party frocks, afternoon gowns, suits and even one-piece utility dresses. Streamers, bows, sashes and rows of ribbon trim almost all of the new evening frocks. Brocade ribbons are being used for camisoles, petticoat ruffles and girdles for dark colored frocks.

Here is a very novel use of narrow satin ribbon. It is looped and applied in rows at both sides of the front on sleeves, blouse and skirt. The short sleeves which mark the frock as one of the newest models just cover the elbow. The frock is designed in the well liked jersey. Those people who predicted that jerseys would pass out are finding themselves mistaken, for it is to be one of the most popular fabrics for spring. There are to be suits, coats and frocks without number of this very practical fabric. Such a frock as this one pictured, which is developed in either dark blues or rich browns, is appropriate for all kinds of informal affairs which take place on spring days.

NATION COMBATING NEW FLU WAVE; CHICAGO USES ANTI-TOXIN IN FIGHT

City nurses in health commissioner's office sealing bottles of antitoxin and city nurses ready for a day's work.

A flu epidemic which may become as serious as that of last winter may sweep the nation, physicians warn, unless all possible precautions are used to prevent the spread of the disease. Chicago is now battling a serious wave of flu and pneumonia—the pneumonia being an aftermath of the flu in many

cases. New death records have been set in that city and the city's entire health force is fighting the wave. Anti-toxin distributed by the city is being administered to victims.

ations are used to prevent the spread of the disease. Chicago is now battling a serious wave of flu and pneumonia—the pneumonia being an aftermath of the flu in many

Spiritualist Medium Convicted and Fined By Capital City Jury

OKLAHOMA CITY, Feb. 4.—There is no difference between "readings" of spiritualists and the practice of clairvoyants, a jury in the court decided here yesterday in its verdict of guilty in the case of Mrs. L. D. McMasters, alleged medium, charged with violating the state law. A fine of \$50 and a sentence of 30 days in the county jail were imposed in the verdict.

Mrs. McMasters gave notice of appeal and was released on bond.

OKLAHOMA CITY, Feb. 4.—A trial involving the use of spiritualist mediums to make readings in Oklahoma was begun here today in the county court when Mrs. L. D. McMasters, charged with telling, or attempting to tell, the fortune of Miss Bessie Jones last October.

Miss Jones testified the medium told her she was to meet "some blonde boys and a dark man will come between them and yourself. She told me I would have a job in a short time and that I was going away—then she went into trance and charged me a dollar."

"Nothing came true. I did not meet any blonde boys and I didn't go away," the witness replied on cross examination.

A medium from out of the city used as a witness admitted that a fund is maintained by the Spiritualist church in the state to defend mediums who are arrested and prosecuted. Mrs. McMasters who testified in her own defense, said she was a "trance medium," which she defined as one who "can hear the spirits talk just as if they were talking over a telephone."

Mediums are allowed to practice and are licensed under the by-laws of the spiritualist church, it was brought out by witnesses.

Blindness and Loss Of Hearing No Bar to This Brave Fellow

By the Associated Press

SEATTLE, Wash. Feb. 5.—Blindness and partial loss of hearing proved obstacles, but not insurmountable ones in the career of Lyle von Ericksen, a 19-year old Spokane boy enrolled as a freshman at the University of Washington. When grades were announced, for the fall quarter, von Ericksen stood near the top of the class, and in Spanish received the highest given by the University in that course, according to school authorities. He finds his way to all classes without difficulty, is an expert wrestler and enters into many school activities.

Von Ericksen has been blind for twelve years, the result of scarlet fever. Effects of the disease also left him almost without hearing, but he found, after experimenting, that wads of cotton saturated with peroxide of hydrogen, acted as artificial ear drums. He received his preliminary education at the state school for the blind at Vancouver, Washington.

It takes nearly 130,000 of some of the screw used in watches to weigh a pound.

It is said that all the soldiers in the armies of Sweden and Denmark can read and write.

When a door key is hung up outside a house in Sweden it is a sign that the family is not at home.

Notice to Property Owners and Sewer Contractors

Sealed bids will be received at the office of the City Clerk and Commissioner of Accounting and Finance of the City of Ada, Oklahoma, up to 3:00 p. m., on the 17th day of February, 1920, for the construction of sanitary sewer lines in Sewer Districts Nos. 8, 9 and 10 in the City of Ada, Oklahoma, bounded by the outside lines of the following described property:

Sewer District No. 8, All of Blocks 7, 8, 9, 13, and 14 in Daggs' Addition.

Sewer District No. 9, All of Blocks 32, 33, 34, 35, 36, 42, 43, 56, 57, 58, 59, 65, 75, 76 and 86 in original Townsite.

Sewer District No. 10, All of Blocks 2, 3, 4, 5, and 6 in Capitol Hill Addition, and all of Blocks D, E and F in Sunrise Addition.

All of the above said lots, blocks and tracts of land being within the corporate limits of the city of Ada, Postotoc County, Oklahoma, together with the necessary lines across streets, avenues and alleys and such

connections with the water mains in said city of Ada, Oklahoma, as shown by the plans prepared for such sanitary sewer districts, same being fully described and defined in Ordinance Nos. 433, 434 and 435 creating Sewer Districts Nos. 8, 9 and 10 respectively, passed by the Board of Commissioners on the 25th day of November, 1919, and approved by the Mayor and Commissioner of Public Justice and Safety, and attested by the City Clerk and Commissioner of Accounting and Finance on the 25th day of November 1919, and in the plans, profiles and specifications prepared by Johnson & Benham, Consulting Engineers, Kansas City, Mo., said plans, specifications and estimates being adopted by the Board of Commissioners and now on file in the office of the City Clerk and Commissioner of Accounting and Finance.

Bids must be made out on proposal sheets to be furnished by the City. Each bid must be accompanied by a certified check in amounts of Two Hundred Dollars (\$200.00) for Sewer District No. 8, Five Hundred Dollars (\$500.00) for Sewer District No. 9 and Five Hundred Dollars (\$500.00) for Sewer District No. 10, as a guarantee of good faith on the part of the bidder. The check of the successful bidder to be forfeited to the City as admitted liquidated damages in case of failure on the part of the bidder to enter into contract and furnish the required bonds with the ten (10) days after the acceptance of his proposal. Certified checks shall be made payable to the City Clerk of the City of Ada, Oklahoma, and to have no other endorsements, or conditions thereon. Bids shall be submitted separately on each district and will separately be considered by the Board of Commissioners.

The successful bidder will be required to furnish a Statutory Lien Bond in full amount of the contract with surety to be approved by the Board of Commissioners, said bonds to guarantee that the Contractor or Contractors will pay all accounts for material, machinery rental, and labor that may become due on account of his or their operations under this contract. Said bonds after being approved by the Board of Commissioners shall be filed with the Clerk of the District Court. The successful bidder or bidders will be required to furnish surety construction bond in approximately the full amount of the contract conditioned for the full and faithful performance by him or them of all the covenants and agreements made in his or their contract, and on the fulfillment by him of all terms and conditions of the plans and specifications.

The successful bidder or bidders will be required to furnish surety bonds in amounts of Four Hundred Dollars (\$400.00), One Thousand Dollars (\$1,000.00) and One Thousand Dollars (\$1,000.00) for Sewer Districts Nos. 8, 9 and 10 respectively, conditioned for the maintenance by him or them in good repair of all work done under the contract. Said bonds shall be dated when the contracts have been completed and accepted and shall be in force and effect for a period of six (6) months from that date.

All bids will be opened and considered by the Board of Commissioners at a meeting to be held at 3:00 p. m. on the 17th day of February, 1920, and the contract will be awarded to the lowest and best bidder, providing said bids are below the estimate of the Engineer as soon thereafter as required by the City Charter, the Board of Commissioners reserving the right to reject any and all bids and to re-advertise for bids in case none of the bids received are satisfactory.

Each bidder shall accompany his bid with a sworn statement as required by Section 1, Article IX, of the Charter of the City of Ada, Oklahoma.

All bids are required to be placed on file in the office of the City Clerk for inspection for two (2) days after opening before award or rejection of bids can be made.

Any and all parties interested are hereby notified that they may appear and protest against or object to said improvements or any part thereof or any matter or thing in relation thereto at said meeting of the Board of Commissioners on the 17th day of February, 1920, and protests must be made on each district separately.

Plans and specifications are on file in the office of the City Clerk and Commissioner of Accounting and Finance of the City of Ada, Oklahoma, and can be procured upon

payment of Ten Dollars (\$10) at the office of Johnson & Benham, Consulting Engineers, 8th Floor Firestone Building, Kansas City, Mo. Upon the return in good condition of all plans and specifications a refund of Five Dollars (\$5.00) will be made.

Signed this 29th day of January, 1920.

W. B. JONES
City Clerk and Commissioner
of Accounting and Finance
2-3-10td.
(Seal)

NOTICE TO CONTRACTORS

Notice is hereby given that the City of Ada, Oklahoma, acting through its Board of Commissioners, will receive sealed bids up to 3:00 P. M. on the 17 day of February, 1920, for the construction of water works and sewer extensions, as per plans and specifications prepared by Johnson & Benham, Consulting Engineers, 8th Floor Firestone Building, Kansas City, Mo., adopted by the Board of Commissioners and now on file in the office of the City Clerk. The work will consist of the following:

SECTION A. Reinforced concrete storage reservoir, 2,000,000 gallons capacity, and pumping station. The City has contracted for all pumping machinery and electrical apparatus for the pumping station. The Contractor will build foundations for machinery in connection with this work.

SECTION B. Housing over Byrd's Mill Spring, levee and protection work for present reinforced concrete penstock and tailrace.

SECTION C. Laying of system of distributing water mains in the City, taking up and lowering of certain water mains, supply line connecting present steel supply line to proposed reservoir, force line from proposed reservoir to connection with city mains, setting of valves, hydrants, etc. The City has purchased all cast iron pipe, fittings, hydrants, valves and valve boxes and Contractor will bid for installation only.

SECTION D. Main and sanitary outfall sewers and storm sewers.

SECTION E. Sewage disposal plant complete, including Imhoff tank, sludge and contact beds.

SECTION F. Unloading, hauling and distributing cast iron pipe, fittings, hydrants, valves, valve boxes, etc.

Each bid shall be accompanied by a certified check or satisfactory Bidder's Bond in the amount of ten percent (10 percent) of the total bid, made payable to the City of Ada, Oklahoma, as an evidence of good faith, to insure the signing of the contract and the filing of the Construction and Statutory Bonds.

Each bidder shall accompany his bid with a sworn statement in writing, as required in Section 1, Article IX, of the Charter of the City of Ada, Oklahoma.

The successful bidder or bidders will be required to furnish Construction, Statutory and Maintenance Bonds as required in the specifications.

Bids received as aforesaid will be opened and considered by the Board of Commissioners on the date heretofore set out and all bids will remain on file for inspection for forty-eight (48) hours after opening before the award or rejection of same will be made.

All work will be paid for in cash on partial monthly estimates as the work progresses, out of funds from the sale of bonds heretofore voted, which funds are now available.

Plans and specifications can be examined in the office of the City Clerk in the City of Ada, Oklahoma, and may be procured upon the payment at the office of Johnson & Benham, Consulting Engineers, 8th Floor Firestone Building, Kansas City, Mo., of Ten Dollars (\$10.00) each for Sections A and C and Five Dollars (\$5.00) each for Sections B, D and E. Upon the return in good condition of all plans and specifications, a refund of fifty per cent (50 percent) of the charge will be made.

The Board of Commissioners reserves the right to reject any and all bids.

Dated this 29 day of January, 1920.

GET READY FOR "FLU"

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nauseless Calomel Tablets, that are Delightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger. Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs.—(Adv.)

A Russian princess has opened a millinery shop in Paris, and may be able to pay off the Russian national debt.—Oklahoma City Times.

If the plan to keep men from striking until after 60 days from a decision by an arbitration board is constitutional, why not make the time limit 60 years?—Miami News.

AND I STILL HAVE MY HEALTH

WOULD ABANDON LEAGUE AT ONCE

BETTER TO GIVE IT UP NOW THAN LATER ST. LOUIS SPEAKERS DECLARE

ST. LOUIS, Dec. 30.—Quoting from President Wilson, Gen. Leonard Wood and Theodore Roosevelt, Prof. William S. Hobbs of the University of Michigan told the American Association for the Advance of Science here today, that it was time to determine "whether we had not better abandon the idea of the league of nations before it was entered upon."

"President Wilson has admitted of the scheme for which he stands sponsor before the world that with its adoption we would embark upon 'uncharted seas,' said Professor Hobbs. 'We need then the advice of those best qualified to forecast the storms we are likely to encounter and to determine whether we had not better abandon the adventure before it is entered upon. The real question before the American people has from the start been one of the reliability of judgment of its political prophets.'"

Dr. Charles M. Bakewell of Yale in his address today, concluded by saying: "We owe a debt of gratitude to those senators, both democratic and republican, who were unwilling to shirk their responsibilities, who remained true to their oath and refused to let sentimental concern for 'the heart of the world' lead them to sacrifice the soul of America."

"It is hard to find any foreign nations that lament over the fading vision of permanent peace," said Professor Bakewell. "What they are gravely concerned about it not having America's assistance now in carrying out the terms of peace, in furnishing credits and in helping to remedy present day conditions in a distracted Europe. America's duty is plain. Let the treaty be accepted with strong reservations of the Lodge type. These, it is said, draw the teeth of the covenant. So much the better."

Using quotations from the Cambridge modern history, Professor Bakewell showed that Napoleon and Alexander I of Russia gave mouth

ECZEMA!

GWYN & MAYS DRUG CO.

to ideas similar to those included in the league of nations covenant. Professor Bakewell continued: "Fair phrases may cloak foul ambition or may be used to disguise selfish interests. It is striking that among the proposed League's severest critics are to be found many who, when Belgium was invaded, and still more when the Lusitania was sunk, were most insistent that America should play a great and unselfish part by entering the war. Whereas there are many who, when the greatest crime against civilization was committed, held that it was none of our affair and were not aroused to action until our own selfish interests made action impossible, who are now to be found among the league's defenders, including the most insistent of them all, and are stoutly maintaining that to play our world part we must concern ourselves even with the petty quarrels of the petty states of Europe. This fact alone should be sufficient to put an end to the attempt to answer the critics of the league by impugning their motives."

A returned traveler says that Germany will be ready and eager for another war in ten years, which may be true, but it is safe to assume that she won't take in so much territory for the next performance.—Oklahoma City Times.

FATHER'S THREAT TO KILL BABY BOY RESULTS IN SETTLING BITTER FEUD

Katherine MacDonald Has Remarkable Role in "The Thunderbolt" at the Liberty Theatre

Threatening to choke his baby boy to death, Bruce Corbin, husband of Ruth Pomeroy, returns home from a year's absence in South America, in "The Thunderbolt," starring Katherine MacDonald and which will be seen beginning today at the Liberty Theatre.

Enraged Finding Himself a Father Corbin is enraged at finding a child in his home because he realizes that this means the continuation of the Pomeroy family which he sought to wipe out of existence through his marriage to Ruth Pomeroy, the last member of a family which he has hated as the result of a feud originating several generations back.

As Ruth Pomeroy, Miss MacDonald has one of the choicest roles of her screen career. She depicts the part of a woman bonded into a loveless marriage to save the reputation of her father who unfortunately placed himself in the hands of his most bitter enemy through a series of illegal transactions.

How the courage of Miss MacDonald, as Ruth Pomeroy, ends a feud of long standing and turns a "spite" marriage into an epoch of wedded bliss is declared by the management of the Liberty Theatre to be one of the most interesting attractions to be seen on that screen in many months.

It's all right to aspire to control others, but have you begun with Number One?

There must beoutput before there can be income.

Defeat is often a spur to victory.

ALL-AMERICAN CANAL IN IMPERIAL VALLEY

By the Associated Press
WASHINGTON, Jan. 5.—Construction of an All-American canal along the California border to remove from Mexican control over the system of the Imperial Valley, the largest irrigation project in the United States, is contemplated in a bill Representative Kettner of California plans to introduce in the House. It will make provision for opening to purchase or settlement by honorably discharged soldiers, sailors and marines with war service of 200,000 acres of public lands on the east mesa of the Valley, which will be irrigable from the proposed canal.

The bill is a redraft worked out during the holiday recess, by a subcommittee of the House Committee on Irrigation of Arid Lands, which has had several measures designed to relieve the situation existing in Imperial Valley under consideration. Hearings before the committee brought out that the crops of the Imperial Valley, which residents said reach a value of \$60,000,000 annually, are dependent upon the uninterrupted flow of the main canal of the irrigation system which, from the diversion point on the Colorado river, swings through Mexican territory for 40 miles before distribution is made to the American ranchers. The water users on the Mexican side, where over 100,000 acres are being irrigated, do not wish to join in the maintenance of the main canal and the protective works in Mexico, according to testimony presented to the Congressional committee.

Relief is sought through the building of a high line canal entirely on American soil, making necessary a cut through a low range of sand hills, which the present main canal avoids by the detour into Mexico. Approximately 400,000 acres of withdrawn public lands, similar in quality to that of Imperial Valley but lying above the present Imperial canal system, will come under the proposed All-American canal, according to Reclamation Service estimates. Under the Kettner bill 200,000 acres would be opened to purchase by war veterans at \$1.25 an acre or, at the discretion of the Secretary of the Interior, be reserved for opening under such soldier settlement legislation as the Congress may enact.

For one man in Fifty a remarkable Union Suit Offer at \$2

Here are the facts of the affair:

We have in stock 8 1/2 dozen of 102 heavy-weight cotton union suits to sell at the astonishingly low price of \$2.00.

There are, roughly speaking, 350 men in Ada who wear this kind and weight underwear—so you can see that only one man in fifty can participate and that is providing no one buys a pair.

These union suits, if bought wholesale today, would sell for about \$3.00 a suit and nobody knows how high and scarce underwear is going to be next Winter.

At \$2.00 they are sure to go like hot cakes—and this is the only time you will see them advertised.

OWEN FOR PRESIDENT BOOM IS PREDICTED

By News' Special Service
OKLAHOMA CITY, Jan. 5.—The probability of an "Owen for President" demonstration at the Jackson Day dinner in Washington next Thursday night would not be surprising. Advocates of Senator Owen's candidacy for the Democratic nomination for the presidency are not to "overlook any bets" from now until the roll call which places the standard bearer before the people is completed.

Governor Robertson, the Oklahoma delegation in congress and other active supporters of Senator Owen will be guests at the dinner and if there proves no opportunity to publicly set forth Senator Owen's claims for the nomination no effort will be spared during the period that the eastern politicians are "milling around."

William Jennings Bryan is to be the principal speaker at the Jackson Day dinner. While rumors are rife that Bryan intends to make another effort to land in the White House gossip among the Oklahoma politicians is to the effect that Bryan support for Senator Owen would not come as a bolt from the clear skies. The Nebraska's attitude toward Senator Owen would be a tremendous factor in the race for the presidential plum. Senator Owen has of course always been a regular and ardent supporter of the party leader in every campaign. As the leader of the Oklahoma democracy since long before statehood he has been the pilot to whom national leaders and ambitious aspirants have looked to in order to gain the support of his followers.

Oklahoma Democratic leaders believe that Bryan is not at all likely to aspire to be the standard bearer this year. With his Commoner and tremendous personal following in every state the advocacy of Owen by the Nebraska would be a factor the value of which would be almost incalculable.

There are those in the capital city who declare that they have first hand information and from the most authentic sources that Mr. Bryan will be among the leaders in the nationwide Owen movement.

Williams to Hold Six-Cylinder Court Muskogee, Jan. 19

MUSKOGEE, Jan. 5. — Federal Judge Robert L. Williams will hold "six-cylinder court" in Muskogee January 19 and 20. All the autos and a few flivvers will be well represented.

The occasion is the hearing on some 26 contested auto confiscation cases. All cases held over during recent terms of court have been set for those two days. Included in the list of cars are five Fords, three Buicks, three Overlands, three Cadillacs, two Hudsons, one Oldsmobile, one Willys-Six, one Maxwell, one Dodge, one Hupmobile, one Chandler and one Haynes.

Those cars which are confiscated will be sold at public auction—probably within a few weeks thereafter.

There is a better market for smiles than for frowns.

KANSAS LEGISLATURE IN SPECIAL SESSION

By the Associated Press

TOPEKA, Kan., Jan. 5.—Whether legislation to be introduced at the special session of the Kansas legislature, which convened today, would be restricted to that outlined in the governor's call, was characterized by leaders of both houses today as a matter of speculation.

In calling the special session, Gov. Henry J. Allen said he favored enactment only of measures proposed in his call. These include the creation of a court of industrial relations, a new workmen's compensation law and appropriations to meet the expense of the Kansas national guard. Since then sentiment has developed for extending the legislative program, and the governor recently announced it was not his purpose to attempt to dictate what legislation should be considered.

Recommendation that an "anti-profiteering program be taken up and a law "with teeth in it" be enacted to give the state power to control the cost of living, has been made by R. J. Hopkins, attorney general. Legislation looking to state supervision of livestock prices and control of the Kansas City stock yards, also has been proposed. Insurance interests have discovered that a law is needed to repeal an old statute which has been on the books for 49 years.

Activities of alleged radicals as brought out at the recent trial of L. W. W. in the federal court in Kansas City, Kan., has prompted a demand for anti-radical legislation and hope has been expressed that the special session will pass an "anti-syndicalism" law to curb alleged "red" activity in the state.

School associations and educational interests in the state are said to be behind a bill which would remove present restriction on the levies whereby funds are raised for maintenance of public schools. It is said such restrictions have resulted in under-paid school teachers, while in some districts funds are insufficient for running the schools.

LOWDEN TO WIN IN G. O. P. FIGHT, OWEN BELIEVES

MUSKOGEE, Jan. 4.—Governor Lowden of Illinois will be the republican nominee for president, is the belief of Senator Robert L. Owen of Muskogee, who is himself a candidate for the democratic nomination.

"Lowden has worlds of money behind him," said the senator yesterday before leaving for Washington. "He will carry the east and middle west and I don't believe anyone else will have a chance. It looks to be between Lowden and General Wood and it looks like the former right now."

Of his own candidacy Senator Owen had little to say, except that he "was surprised to see how quickly a fund was pledged to boost my candidacy."

The biggest question now before congress is the railroad problem.

says the senator, who predicts a combination of the Esch and Cummins bills for the final law on the railroad matter.

"The conference committee now is working on these two bills and will soon have a compromise measure to lay before both houses of congress," he asserted. "This is the most pressing matter before congress and will be disposed of immediately."

After trips to various parts of the state during his stay over the holidays, Senator Owen declares that Oklahoma is just now on the eve of the greatest prosperity the state has ever known.

"I never saw things going so well," he said. "Everyone has money and everyone is spending it. Banks have the largest and most deposits and everyone is happy. And the good times are just beginning, for Oklahoma seems to be due for the greatest development ever in the next few years."

Railway Crossing Very Dangerous For School Kids

The attention of the parents, who have school children attending school in the East part of the city and who have to cross the Katy tracks, should be called to the danger of crossing the track at the respective streets where there are no crossings, namely 13th and 15th Streets. Possibly the parents do not know this and they should direct their children not to cross these streets but to go across the viaducts on either 12th or 14th St. Fifteenth Street is especially dangerous for there is a steep bank on either side leading to the tracks and only a wabbling log or plank on which to cross the ditch, which is next to the track and is deep enough to injure a child seriously if it should fall into it. And there is

great danger of the train, which does not always slow down, especially at this place where there is no team crossing and which is not a regular crossing. Only yesterday two little girls ran down the steep bank leading to the track at 15th St. and were only barely able to stop in time to retrace their step sufficiently to run up the bank a short distance and grab hold of some dead grass on which to hold for support just as the train rushed by and very narrowly escaping death.

CONTRACT AWARDED FOR FINE ARTS BUILDING

OKLAHOMA CITY, Ok., Feb. 4.—The State Board of Affairs today awarded contract to the Kreipe-Shaffer Construction Company of El Reno for construction of the Fine Arts Building at the Oklahoma College for Women at Chickasha. The contract price is \$59,000 and the building is to be completed at the earliest possible time.

"DEBS FOR PRESIDENT" PETITIONS ARE FILED

LANSING, Mich., Feb. 4.—Petitions were filed with the department of state today asking that the name of Eugene V. Debs, be placed on the Michigan ballot as socialist candidate for president at the April primaries.

Home Economics Club
The regular monthly meeting of the Home Economics Club was held in the Home Economics room Wednesday afternoon at 4 o'clock. The hostesses were Mrs. Waddill and Inez Neal assisted by Fay Knotts, Corinne Moore and Julia Smith.

After the regular business meeting a vocal duet was rendered by Misses Gervis Bills and Clarice Cartwright. Mr. Norris then discussed the subject of the afternoon, "What Should a Woman Know About House-Planning?" His talk was both interesting and instructive and at its close the club extended Mr. Norris a vote of thanks for his part of the program.

Refreshments consisting of sandwiches and tea were served and the club then adjourned until its next regular meeting in March.

OKLAHOMA CITIES HAVE CHANCE AT PRIZE OF \$25,000

NEW YORK, Feb. 4.—The city in Oklahoma which offers the best conditions under which to rear a boy or girl will be the object of a state-wide search by Dr. William A. McKeever, director of juvenile work of the Presbyterian national board of temperance and moral welfare. It was announced here tonight. The municipality which scores the highest at the end of a year's test will be awarded a prize of \$25,000 offered by the Rotary Club of Shawnee, Oklahoma.

Dr. McKeever, who is also a member of the faculty of Kansas University, has conducted a similar "better cities" campaign in Kansas, where about sixty cities were enrolled in the movement.

175 INFLUENZA CASES IN SMALL TOWN OF HASTINGS

OKLAHOMA CITY, Feb. 4.—Report came today to Dr. A. R. Lewis, state health commissioner, that there were 175 influenza cases in the little town of Hastings and the local force of physicians could not handle the situation. Dr. Long, head of the state tuberculosis bureau, was sent to the town to assist, with instructions that if more doctors were needed he should call on the nearest towns.

ET-SOLDIER WITH 25 YEAR SENTENCE IS PAROLED

OKLAHOMA CITY, Feb. 4.—Gov. Robertson today issued a parole to Elwood Ward, a Washington county youth, sentenced in 1917 to twenty-five years in the penitentiary on a charge of manslaughter. The boy was in the draft, waived all exemptions and saw service in France. Returning to the United States he enlisted in the navy, where he now is. Numerous recommendations for his parole were received by the governor.

Report comes from the hospital at Tulsa, where Mrs. T. H. Rowzee was recently operated upon, that she is steadily improving and will soon be ready to return home.

The physicians report no visible change in the condition of Fred V. Cox who has been confined to his home in the Collonade for ten days with pneumonia. It is reported to be one of the most critical cases in the city.

Margaret Parker the little daughter of A. W. Parker was taken ill yesterday with the "flu".

Ray Smith.

The sergeant who jumped into the water recently by interrupting Bob Martin's string of knockout victories by holding Martin to a draw.

THE MARSH RABBITS

"Well," said Mrs. Marsh Rabbit, as she looked about her, "it won't be so long before spring now. Of course it will be quite a time but it will pass quickly. I will then begin to welcome the little ones. They will come in groups, several times during the rest of the year after that."

"And how they will love their home."

"Mine will love their home too," said Mrs. Swamp Rabbit, "for we are so very much alike. We have nests of grasses and rushes, softly lined with our own fur. We live in swampy, marshy lands and we love the vegetables and roots around our parts."

"Yes, we're very much alike," said Mrs. Marsh Rabbit. "We both love the water so much that we live around it, and we love swimming as much as we do running or jumping or skipping."

"We always run to water when we want to escape. We always go straight for it when danger is near, for the water is a great protection to us."

"The wood rabbit relatives care for the great woods and not for the water at all."

"You, Mrs. Swamp Rabbit, belong to a larger family than I do with long legs and you can run faster. But I care more for the water than you do. You will often live further away from it than I will."

"We both live down south it is true, and you look quite a bit like me. I am a relative too of the cottontail family, but I have smaller ears and

"To Escape."

shorter, thinner legs and feet and a short tail. You're my only very near relative, and you go more to the west than I do.

"Oh, you must be off now? Well, good-bye, glad to have seen you. It's quite a treat."

"Good-bye," said Mrs. Swamp Rabbit, "and I will be thinking of you in April when the children will come. I will think of your children as I behold my own little beauties."

She was off, and Mrs. Marsh Rabbit looked after her.

"I must see that my nest is all right," she said.

Her nest was in the heart of a swamp, surrounded by water. It was a very warm and comfortable and soft looking nest with all its grass and leaves and its soft fur as a lining.

"It's so nice," said Mrs. Marsh Rabbit to herself, "not to have to depend on shops to get things one needs. Now I wouldn't know where to go for a lining such as I have in my nest, but I don't have to look about and get exhausted shopping."

"Just some of my own fur will do! And the children will know it's mother's old fur and they will love it and will lie so snugly upon it and will dream happy little marsh rabbit dreams."

"And they won't capture us—creatures who're out looking for rabbits—no, they won't!"

"For we know how to hide in the water. We know how to look after ourselves, and that is why we live where we do."

"We live where we can be safe and happy and where everything around us will be marshy and comfortable."

"But I will have to tell my little ones the old story of the door."

"They will see the one entrance to the nest and they will say, 'Why mother, do we all go out of the same door?' And I will tell them, 'That is the great entrance to Mother Marsh Rabbit's home and it is as fine as any entrance way or front door to any big house or mansion.'"

"And the little ones will wiggle their noses and will say, 'How nice it is to be little marsh rabbits and to have a front door to our home like real folks do!'"

"Dear little bunnies, what a happy home awaits you!"

In the Woodshed.

"Did your father take you out to the woodshed for purposes of discipline?"

"He did that," answered the boy.

"I thought he disapproved of corporal punishment."

"He does. He believes in prolonging the agony. He made me saw wood for three hours."

Was Choking the Birds.

A first grade teacher taught her pupils they had birds in their hands and if they did not keep them closed they would fly away. The teacher noticed a little girl crying and asked the reason. "Oh, Jimmy's got his hands closed so tight I'm afraid the birds will choke," she replied.

NOTION OF SALE County of Oklahoma

Notice is hereby given that pursuant to an order of the State Court of Pontotoc County, State of Oklahoma, made on the 17th day of January, 1920, in the guardianship of Charley and Dixie Russell, I will sell to the highest bidder for cash, subject to a loan of \$700, and rental contract for the year of 1920.

The following land, a two thirds undivided interest, in and to the North half of the North east quarter of Sec. 35 Township 4 north range 4 east, and the north west quarter of the north west quarter, of Sec. 36, Township 4 north of range 4 east, containing 60 acres.

Said sale will be for cash. Ten percent to be paid at the time of sale and balance upon approval of sale by said County Court, and will be held in the office of County Judge in the City of Ada, Oklahoma, at 2 o'clock P. M. on the 12th day of February, 1920.

The undersigned Guardian reserves the right to reject any and all bids.

This the 29th day of January, 1920.

Why Druggists Recommend Swamp Root

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine. It is a physicians prescription.

Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Ada News.

Republican Committee Settled Down to Job Of Platform Making

By the Associated Press.
WASHINGTON, Feb. 5.—The Republican committee of 171 settled down today to the task of drafting recommendations for the party national program. The committee took up such matters as will aid in forming a readjustment of foreign and domestic commerce, postal reforming and labor conditions for the party platform. The committee members said they considered that the senate had taken final action on the peace treaty.

WATTS OFF BENCH, BACK TO PRACTICE

OKLAHOMA CITY, Feb. 4.—Charles G. Watts of Wagoner, judge of the district court of Wagoner and Muskogee counties, presented his resignation today to Governor Robertson to become effective Monday. Judge Watts will practice law in Wagoner. E. A. Summers of Wagoner, an attorney, is said to be a candidate for appointment to fill out the remaining three years of Judge Watts' term.

The low salary paid district judges and the high cost of living are said to be the reasons for Judge Watts' retirement.

Mrs. M. L. Bronaugh and daughter, Selma, returned to their home in Konawa yesterday after a visit with their son and brother, Roy Bronaugh, who is employed at the MacThwaite Oil & Gas Co. They expect to locate in Ada just as soon as they are able to secure a house.

TAX RETURNS!
